College of Menominee Nation

Academic Roadmap Procedure

Students will prepare an individualized Academic Roadmap to define academic, career, and personal goals; identify strengths; identify areas for improvement; locate campus resources; and create a graduation plan. The Academic Roadmap will be shared with your Student Achievement Specialist and then uploaded to students’ ePortfolios.

1. The Academic Roadmap is required of all new First-Time Freshman students. Continuing and Returning students that have not completed this document will be contacted by their Student Achievement Specialist for completion.
2. The Academic Roadmap will be introduced to new First-Time Freshman in EDU100 Student Success Strategies by their instructor.
3. Students are required to make an appoint to meet with their Student Achievement Specialist to discuss each section of the Academic Roadmap. This appointment will coincide with the registration meeting.
4. After the last section of the Academic Roadmap (see section 4) is successfully completed, the Student Achievement Specialist will sign and date the document.
5. The student will be required to upload the Academic Roadmap to their ePortfolio.
