

■ Sustainable Development

ASSOCIATE OF ARTS AND SCIENCES Minimum of 60 Credits

The Associate of Arts and Sciences Degree in Sustainable Development will provide a student with a broad-based understanding of the Menominee Model of Sustainable Development. This program focuses on a multidisciplinary approach where emphasis courses are designed to foster awareness of and responsibility for community and environmental resources.

Students who earn this degree from the College of Menominee Nation have the opportunity to pursue their careers in the rapidly expanding green jobs market. These careers might include a position as a sustainability consultant, recycling manager, green business specialist, recycling/waste technician, community developer, renewable energy consultant, etc. This degree also allows students to earn a Bachelor's Degree by completing the required courses at CMN and finishing the Junior- and Senior-level classes at a four-year college or university.

SDE290	*Implementing Sustainable Development	3 cr.	_____	_____

SUSTAINABLE DEVELOPMENT PROGRAM OUTCOMES

Upon completion of this program, the graduate will be able to:

1. Explain how the Menominee land ethic has led to the development of the graduate's own model of sustainable development that can be utilized for problem-solving at the local and global level;
2. Identify and summarize current research literature on sustainable development;
3. Blend technology into their research, critical thinking, problem-solving and analytical practices;
4. Identify the interfaces between the social and physical sciences and to apply this knowledge to problem-based learning; and
5. Professionally apply interpersonal and inter-disciplinary skills in their social interactions.

Courses that have an asterisk () in front of them have a requisite. Students should refer to the academic catalog and plan accordingly.*
